

Mr Appou Tamijmarane

MBBS, MS Gen-Surg
FRCS Gen-Surgery (Intercollegiate RCSEd)
FRCS (Edin & Glasgow)

Highly skilled Consultant Surgeon in General Surgery with
a special interest in HPB and UGI for 17 years in the NHS
in the UK

Having completed my CCT in General Surgery in August 2006, I joined the Department of General Surgery at Raigmore Hospital, Inverness, Scotland as a Consultant General Surgeon with speciality interest in both Upper GI and Hepatobiliary surgery. Raigmore Hospital is a tertiary level teaching hospital catering for a population of 320,000 and is one of the five cancer centres in Scotland where I support multi-centred diagnostic and therapeutic cancer management services.

Out with my surgical skills I also
have excellent experience in the following:

Teaching - University of Aberdeen Phase 3 coordinator for 5 years guiding medical students. Organised and led training days for HBP & UGI surgical trainees. As Educational Supervisor supported and mentored surgical trainees. I have trained junior doctors & post graduate trainees in numerous surgical procedures, and I have also trained specialty doctors and fellow consultants in ERCP and other advanced surgical procedures.

Examiner - I have organised OSCE exams for University of Aberdeen medical students. For 3 years, I was on the UK Joint Committee on Surgical Training National Surgical Trainee selection panel.

Consultant appraiser - I am a trained appraiser and have supported fellow Consultants in their appraisal and revalidation process.

Head of Surgery - I have held this post leading our team of 20 surgeons for 3 years.

Roles with the GMC - selected by the GMC, I acted as an untrained Peer Review Assessor in a case to uphold good medical practice. On behalf of the GMC, I conducted OSCE examinations for International Students undertaking the PLAB exam to assess their fitness to practice in the UK.

Journal Reviews - On behalf of the World Journal of Surgery, I have peer reviewed surgical articles in the past.

Current Post

Consultant General, HPB &
UGI Surgeon,
Department of Surgery,
Raigmore Hospital,
NHS Highland,
Inverness, Scotland, UK
IV2 3UJ
Since October 2006

Medical License Registration

Valid DHA to Feb 2025

Fluent Languages

English
Tamil

Nationality

British
Indian OCI

Date of Birth

6 April 1967

Experience in Current Post – Centering my surgical career around developing and mastering my skills on the operating table and taking great pride when performing beautiful surgeries for my patients, knowing that I have given them my best for a positive outcome – this is what drives me as a surgeon. I have the stamina and mental strength to perform successful complex operations, on occasion operating for up to 14 hours. I share my joy of surgery through teaching, knowing the skills I have learnt from my Professors are being handed on to the next generation, and that too with scientific advances, is very exciting.

Dealing with complex cases, especially with HPB & UGI cancer patients, I quickly form strong professional relationships with my patients and their families developing trust in my skills and capabilities as a surgeon; I have found this to be a vital factor in securing the best outcomes for my patients.

While working alongside other specialists to provide optimal patient care pathways, I take full responsibility for the independent management of my patients under consultant-led practice. I provide advanced laparoscopic and endoscopic techniques for primary interventions and postoperative complications, and I am well versed with therapeutic UGI scopes including dilatation, over-the-scope clip application for anastomosis leak, stent insertion as well as feeding tube insertion, and advanced ERCP procedures.

I collaborate with both inter-departmental colleagues for MDT meetings and inter-regional colleagues in Aberdeen and Dundee, as part of our Regional Cancer Service, to provide best-practice clinical plans for highly complex cases across the North of Scotland Region.

I run specialist and general clinics, participate in quality and patient safety procedures and actively participate in surgical adverse event discussions as well as dealing with any patient complaints. I also participate in the surgical on-call rota managing general surgical, upper gastrointestinal, colorectal cases, and also emergency and trauma service for acute abdomen.

I am a strong leader of my team and support, guide, and teach junior doctors, medical students, and nursing practitioners. For five years, with the University of Aberdeen, I coordinated the phase 3 training for medical students, regularly holding tutorials, seminars, observational sessions in theatre and OSCE examinations. As an Educational Supervisor, I have supported and mentored surgical trainees, in developing not only their surgical techniques but also their skills in communication and how to overcome the adversity and challenges faced by surgeons. For our HBP & UGI surgical trainees, I have organised and led training days and regularly attend and actively input at Morbidity & Mortality meetings. I have trained junior doctors and postgraduate trainees in numerous surgical procedures, and I have also trained specialty doctors and fellow consultants in ERCP and other advanced surgical procedures.

I am excellent and thorough in maintaining my surgical documentation and easily communicate with patients, juniors, colleagues, and co-workers. I am comfortable, when called upon, to provide second opinions at expert level and willingly support colleagues in managing their surgical complications.

I have extensive experience in both preoperative and postoperative patient care and enjoy the opportunity to follow up with patients having the opportunity to observe the positive impact their surgery has had on their quality of life and for many, the additional time they have with their families, especially for cancer patients, is so very rewarding as a surgeon.

Surgical Skills and Expertise

I am highly skilled in performing the following procedures & surgeries:

General Surgery - Open & laparoscopic appendicectomy, hernia repairs, gall bladder surgery, laparotomy for small & large bowel resections, etc

UGI Surgery - gastric and oesophageal resections for cancer and benign conditions

HPB Surgery - liver and pancreatic resections for cancer and benign conditions, and biliary work including reconstructions.

Laparoscopic Surgeries - range of hernia's, cholecystectomies

Advanced Laparoscopic Surgeries - bile duct exploration, fundoplication, laparoscopy assisted esophagectomy, distal pancreatectomy, splenectomy and Heller's cardiomyotomy

Diagnostic and Therapeutic Upper GI Endoscopies - oesophageal/pyloric dilatations, stent insertions for oesophagus & duodenum and variceal banding

ERCs - management of stones & Hepatobiliary Cancers

Emergency oncall including Trauma Service - emergency laparotomy for acute and abdominal trauma conditions and emergency endoscopies for UGI bleeding

Membership of Professional Societies

DHA (Dubai Health Authority) Registration Certificate Number: 50530660

GMC (General Medical Council) Registration Number: 4566090

BMA (British Medical Association)

MPS (Medical Protection Society)

AUGIS (Association of UGI Surgery)

European Hernia Society

ASI (Association of Surgeons of India)

Education

FRCS Intercollegiate, RCS Edinburgh, Scotland	September 2002
FRCS Glasgow, RCPS Glasgow, Scotland	March 1996
FRCS Edinburgh, RCS Edinburgh, Scotland	December 1995
MS General Surgery, JIPMER, Pondicherry, India	March 1993
MBBS, JIPMER, The University of Madras, Pondicherry, India	January 1990

Awards

- Norman Tanner Medal and Travelling Fellowship from the Royal Society of Medicine, London December 2002
- Anterior intrahepatic approach to right hepatectomy - one of three best posters selected at the Manchester Upper GI Association Meeting, 25-26 September 2002.
- Scholarship during MBBS, JIPMER, The University of Madras, Pondicherry, India

Innovations

Having pioneered a new technique 'Positive intra operative thoracic duct identification after feeding via the feeding jejunostomy intraoperatively' in 2007, I have helped to minimise the chylothorax related complication from our practice as a result of thoracic duct injury - a major complication (3- 10% risk)

Employment History

Consultant General Surgeon with HPB & UGI Speciality

October 2006 - to date Raigmore Hospital, Inverness, UK

Specialist Registrar HPB & UGI Surgery

April 2006 - August 2006 Walsgrave Hosp, Coventry, UK

Specialist Registrar HPB & UGI Surgery

April 2005 – April 2006 Queen Elizabeth Hosp, Birmingham, UK

Senior Clinical Fellow, (Spr Grade) HPB Surgery & Liver Transplantation

March 2004 - March 2005 Royal Free Hospital, London, UK

Specialist Registrar (5th yr FTTA S.E. Scotland Rotation) HPB & UGI Surgery

August 2003 - January 2004 Royal Infirmary of Edinburgh, Scotland, UK

Clinical Research Fellow (SPR Grade) HPB

July 2002 - June 2003 North Hampshire Hospital, Basingstoke, UK

Specialist Registrar (5th yr FTTA S.E. Scotland Rotation) Vascular Surgery

April 2002 - June 2002 Royal Infirmary of Edinburgh, Scotland, UK

Specialist Registrar (4th yr FTTA S.E. Scotland Rotation) HPB & UGI Surgery

October 2001 - March 2002 Royal Infirmary of Edinburgh, Scotland, UK

Specialist Registrar (4th yr FTTA S.E. Scotland Rotation) Laparoscopic & GI Surgery

April 2001 - September 2001 Western General Hospital, Edinburgh, Scotland, UK

Specialist Registrar (3rd yr FTTA S.E. Scotland Rot) UGI Surgery & Breast/Endocrine Surgery

April 2000 - March 2001 St John's Hospital, Scotland, UK

Locum Specialist Registrar (LAS) Breast/Endocrine Surgery

December 1999 - February 2000 Glenfield Hospital, Leicester, UK

Specialist Registrar (2nd yr FTTA West of Scotland Rotation) UGI Surgery

October 1998 - November 1999 Victoria Infirmary, Glasgow, UK

Specialist Registrar (1st yr FTTA West of Scotland Rotation) Laparoscopic & General Surgery

October 1997 - September 1998 Vale of Leven Hospital, Glasgow, UK

Visiting Registrar Vascular/Breast & General Surgery

July 1996 - September 1997 Gwynedd Hospital, Bangor, Wales, UK

SHO Vascular Surgery

February 1996 - June 1996 Gwynedd Hospital, Bangor, Wales, UK

Locum SHO Vascular Surgery

December 1995 - January 1996 Gwynedd Hospital, Bangor, Wales, UK

Senior Resident Paediatric Surgery

August 1994 - November 1994 JIPMER, Pondicherry, India

Senior Resident General Surgery

August 1993 - July 1994 JIPMER, Pondicherry, India

MS General Surgery (Postgraduate training)

April 1990- March 1993 JIPMER, Pondicherry, India

Courses and Conferences

1. Intraoperative laparoscopic USS Course, November 2023 Inverness, UK
2. Laparoscopic TAPP course, January 2019 Newcastle, UK
3. Abdominal wall reconstruction, February 2017 London, England, UK
4. Definitive Surgical Trauma Skills, February 2016 London, England, UK
5. Supporting trainees with difficulties, 10 December 2015 Glasgow, UK
6. Equality and diversity module, 4 April 15 Online
7. National meeting: Morbidity and Mortality for HPB cancers 25 March 2015 Edinburgh, UK
8. National HPB educational meeting 23 January 2015 Glasgow Royal Infirmary, Glasgow, UK
9. Good clinical practice training, 28 November 2014 Online
10. Scottish ERCP Masterclass, 14 November 2014 Airth Castle, Airth, UK
11. AUGIS meeting, 18-19 September 2014 Brighton, England, UK
12. Lecture: ERCP access at Viking Surgeon's Conference 11-12 September 2014 Scotland, UK
13. Exploring Leadership and Safety Culture within Teams 26 August 2014 Inverness, UK
14. Quality Improvement Learning event, 25 June 2014 Inverness, UK
15. Educational Supervision Workshop, SCOTS plus course 23 May 2014 Inverness, UK
16. New appraiser training course February 2014 Inverness, UK
17. ERCP Symposium in September 2013 Salisbury Royal Infirmary, England, UK
18. Hosted: National HPB audit and educational event Perth 2013 Inverness HPB Surgeons, UK
19. Clinical Research Methodology November 2012 Online by Sheffield University, UK
20. Educational Supervisor Course 16-17 September 2012 Dumfries, UK
21. NHS Management Functions Lamp Course on 13-14 November 2012 Edinburgh, UK
22. National Upper GI Audit and Educational event 23 Nov 2012 Aberdeen, UK
23. National HPB meeting 23 March 2012 Aberdeen, UK
24. Scottish Audit Surgical Mortality Workshop 13 March 2012 Stirling, UK
25. Equality and Diversity course 17th April 2012 Online
26. Laparoscopic TAPP (NUGITS) Hernia course 14-15 October 2011 Hexham, England, UK
27. 13th Bill Owen Oesophago-gastric Symposium, RCS of England 25 March 2011 London, UK
28. Cadaveric Anterior Abdominal Wall Reconstruction & Component Separation Technique
26-27 October 2010 Bristol, UK
29. 2010 Euro Notes 4th Joint European Notes workshop 11 September 2010 Rome, Italy
30. Single Incision Laparoscopic Surgery course on 24 July 2010 Edinburgh, UK
31. Clinical Supervision Course 7 July 2010 Inverness, UK
32. Sonosite Critical Care Ultrasound 11 March 2010 Hitchin, London, UK
33. Laparoscopic Live Surgery, 20-21 Oct 2009 Dundee, UK
34. Scottish Patient Safety Program Course 16-17 Nov 2009 SECC Glasgow, UK
35. Scottish HPB Network meeting 30 Nov 2009 Edinburgh, UK
36. Single Incision Laparoscopic Surgery 24 July 2009 Edinburgh, UK
37. 11th Bill Owen Oesophago-gastric symposium "Meet the Experts" 18 Sep 2009 Oxford, UK

7. Analysis of the management of advanced inoperable oesophageal carcinoma in the Highlands. Presented at the Audit Symposium RCSEd, Edinburgh 12th March 2010 Fung A, Hayward A, Coggins RP, Tamijmarane A
8. An analysis of 5 cases undergoing Whipple's resection for benign adenyomatous hyperplasia. Poster presentation Scottish HPB (NOSCAN) meeting, Edinburgh 30th Nov 2009 Ross N, McPhee J, Coggins RP, Tamijmarane A
9. Outcomes of endoscopic choledocholithiasis management with or without cholecystectomy. Poster presentation, AUGIS, Nottingham 3-4 September 2009 Mitchell A, Tamijmarane A, Logie J and Coggins RP.
10. Benchmarking our oesophagogastric cancer management against national guidelines. Poster presentation ASGBI Liverpool 14-15 April 2010 Parnaby C, Coggins RP, Tamijmarane A.
11. Why are we waiting? A study of factors contributing to delayed treatment of oesophagogastric cancer. Poster presentation ASGBI, Liverpool 14-15 April 2010 Laird JEC, Craig P, Tamijmarane A, Coggins RP
12. A new technique in preventing chylothorax after Ivor-Lewis oesophago-gastrectomy - does it work? Presented at the 14th Congress of the European Society of Surgical Oncology in The Hague, Netherlands 10-12 September 2008 Shalli K, Coggins R, Tamijmarane A
13. Lack of core and applied physiology and critical care knowledge - whose fault is it? Presented to the Plenary Session of the Royal College of Edinburgh on 14 March 2008 Quinn M, Clement A, Smith M, Tamijmarane A
14. Lack of core and applied physiology and critical care knowledge - whose fault is it? Poster presentation, ASIT Conference, Feb 2008 Quinn M, Clement A, Smith M, Tamijmarane A.
15. An update on upper GI surgery practice in the Highlands. An invited lecture to 'the Inverness Symposium' organised by RCPS Glasgow 25 May 2007 Tamijmarane A.

Presentations (con't)

16. Application of Portsmouth Modification of Physiological and Operative Severity Scoring System for enUmeration of Morbidity and Mortality (P-POSSUM) in Pancreatic Surgery. Poster presentation, ASGBI, Edinburgh 3 May 2006 Tamijmarane A, Bhati CS, Mirza DM, Mayer AD, Bramhall SR, Wigmore S, Buckels JAC.
17. New-onset diabetes mellitus following orthotopic liver transplantation - a logistic regression analysis of predicting factors. Poster presentation for ILTS meeting, Milan, Italy, 4 May 2006 Tamijmarane A, Koukoutsis I, Gunsen B, Mirza DM, Mayer AD, Bramhall SR, Wigmore S, Buckels JAC.
18. MELD - its predicting ability on waiting list mortality, short and long term outcome after orthotopic liver transplantation. Poster presentation, ILTS meeting in Milan, Italy 4 May 2006 Bhati CS, Tamijmarane A, Gunsen B, Mirza DM, Mayer AD, Bramhall SR, Wigmore S and Buckels JAC.
19. Transectional hepaticojejunostomy - an effective treatment for entero-biliary reflux. Poster presentation to the Scottish Society of Gastroenterology, The Royal Infirmary, Edinburgh, 28 November 2003 Tamijmarane A, O'Loughlin P, Garden OJ, Madhavan KK
20. Anterior intrahepatic approach to right hepatectomy - revisited. The Norman Tanner Medal and travelling fellowship awarded for this presentation by the Royal Society of Medicine, London on 4 Dec 2002 Tamijmarane A, Basu S, Pockney P, John T, Rees M
21. Anterior intrahepatic approach to right hepatectomy - revisited. Nominated as one of the three best posters and as such presented it as an oral presentation at the AUGIS Meeting at Manchester International Conference Centre, 25-26 September 2002. Tamijmarane A, Rees M, Basu S, Pockney P, John T
22. The role of chemotherapy as a prelude to hepatic resection for colorectal metastases. Presented to the Royal Society of Medicine (one of the eight presentations selected to compete for the Norman Tanner Medal /Travelling fellowship scientific presentation session), London, 4 Dec 2002 Tamijmarane A, Rees M, Basu S, Pockney P, John T
23. The role of chemotherapy as a prelude to hepatic resection for colorectal metastases. Presented to the AUGIS Meeting at Manchester International Conference Centre on 25-26 September 2002. Tamijmarane A, Rees M, Basu S, Pockney P, John T
24. The Vale Knot: an intracorporeal slip knot. Presented as a poster under "Endoscopic Procedures and Surgery" during the 10th International Conference held by the Society for Minimally Invasive Therapy between 3rd to 5th September 1998 at Inter-Continental Hotel, London Tamijmarane A, Campbell DF, Nassar AHM
25. Intracorporeal ligation of cystic duct and artery during laparoscopic cholecystectomy - Do we need the endoclips? Poster presentation AESGBI annual meeting during the Association of Surgeons Meeting, Edinburgh on 15 May 1998. Tamijmarane A, Campbell DF, Nassar AHM
